

Akos Test Job

Unser Unternehmen

Wir können vieles richtig gut, aber eben noch nicht alles. Darum suchen wir immer wieder jene, die Initiative zeigen und sich durch ihr Engagement, Können und Talent auszeichnen. Wenn du dich angesprochen fühlst, dann bring dich ein als:

We are recruiting a group of postdocs who are eager to pursue groundbreaking biomedical research, and we will help them to establish themselves as future scientific leaders. This postdoc program is designed to prepare postdoctoral researchers for a successful ERC Starting Grant application and for an independent research career in top research organizations in Europe and around the world.

The postdoc program is based at the CeMM Research Center for Molecular Medicine of the Austrian Academy of Sciences in Vienna, one of Europe's leading centers for basic biomedical research – with clinical translation in mind. Selected candidates will join one of CeMM's research groups for 3 to 6 years, addressing ambitious research questions in areas such as cancer, immunology, chemical biology, epigenetics, metabolism, and genomic medicine. Research projects will focus on medically relevant problems, including disease mechanisms, modern therapeutics and diagnostic strategies. On top of this, postdocs will receive extensive career development and leadership training from the entire CeMM Faculty and additional experts in a highly collaborative and supportive environment.

Akos Test Job

Dein Aufgaben

- Du bist verantwortlich für dies
- und auch für das
- und mit deiner Erfahrung wirst du uns mit jenen helfen
